A peaceful, safe, and secure Blue Pacific region which respects national sovereignty, and where people can realise their full potentials as individuals, communities and nations, and where the region delivers Pacific-coordinated responses to security challenges and contributes to building global peace and security.

Resource and Economic Development

All Pacific peoples benefit from a sustainable and resilient model of economic development, including enabling public policy and a vibrant private sector and others, that brings improved socio-economic wellbeing by ensuring access to employment, entrepreneurship, trade and investment in the region.

Political Leadership and Regionalism

All Pacific Peoples will benefit for our Forum Leaders working together to safeguard, secure and progress the Blue Pacific Continent, achieving regional priorities through a united and cohesive political leadership supported by the Pacific Islands Forum and a responsive regional architecture that aligns to the region's priorities and values.
